Pelsall Village School – School Streets

Dear Parent/Carer

A new School Streets scheme will be introduced at Pelsall Village School from the start of the new school year in September. This builds on the success of 10 existing School Streets schemes across the borough and is one of three new schemes being introduced for 2026.

The scheme will restrict motor vehicle access to School Lane, Old Town Lane (between the School Lane and Pelsall Evangelical Church) and Clarendon Place during term time, Monday to Friday, between 8.30am and 9.15am and 2.45pm and 3.45pm. The aim is to create a safer environment for children and families, reduce traffic congestion and encourage walking, scooting and cycling.

Signs and enforcement cameras will be installed over the summer holiday in preparation for the scheme going live. In addition, new parking restrictions will be introduced at locations around the boundaries of the School Streets zone to help support the effective operation of the scheme.

The attached plans show the full details of the scheme, which will operate initially as an 18 month trial, with opportunities for parents, residents and school staff to provide feedback during the first six months. Further information, including how to take part in the consultation, will be issued at the start of the autumn term.

Thank you for your support in helping to make the journey to and from school safer for everyone. **Please remember to plan your journeys accordingly ahead of the scheme starting in September.**

We are also working closely with the local community to explore alternative off-street parking options for families who need to travel by car, and we hope to share further details in due course

This is a Walsall Council initiative with the support of the school. If you do have any questions or concerns please direct them to trafficmanagement@walsall.gov.uk.
