Dear Parents/Carers,

April 2021

We are writing to remind you about the arrangements in relation to the CGP books that were provided to your child over the last two weeks. Due to one or some of a variety of circumstances, your child did not return the set homework as requested.

School has explained that these two books had been purchased as part of the initial 'catch up' support using government funding. Mr Bagley has been clear in his letters throughout lockdown that the catching up process will involve the additional support from home.

On a weekly basis, the class teachers will be indicating which pages your child should complete by posting these on the school website – it is important only these pages are completed. This regular homework will provide our children with practise of key skills but also support a good routine of complementing school learning with that at home.

As school governors we are supportive of this process and request that you actively support your child towards success in their futures by ensuring completion of these additional activities and return to school as requested by the class teacher.

Yours sincerely

Stephen Hope
